Fund description

The fund's investment objective is to achieve positive nominal return higher than for the WIBID 6M + 40bps. The objective is neither guaranteed by the fund nor the Company nor any other third party.

The risk level of investing in the fund is low.

The fund pursues its investment policy by investing assets **mainly in debt instruments**, including those issued, endorsed or guaranteed by:

- State Treasury or National Bank of Poland,

- companies listed on the Warsaw Stock Exchange.

The fund may invest up to 10% of assets in equities, including shares listed on the Warsaw Stock Exchange. The assets may be invested in equities when there is a high probability that their prices will increase (arbitrage for example). Thus, Investors have an additional opportunity to participate in and benefit from the growth of equity prices, which is not offered by traditional debt funds. The fund may be appropriate during times of correction in the equity market or used as a low-risk component of diversified investment portfolios.

The Subfund is a product referred to in Art. 8 SFDR (Regulation of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector), promoting environmental and social aspects.

For the calculation of the performance fee, the subfund uses the model with reference to the WIBID 6M + 25bps benchmark, consistent with the actual investment policy of the Subfund. This means that the performance fee may be charged only in the event of achieving a relatively higher rate of return than the benchmark, ultimately in a 5-year reference period. In addition, the relative losses previously incurred in the reference period must be recovered before the performance fee is charged. The performance fee is 20%. The performance fee may only be charged once per calendar year, also in the case of a nominal loss after breaking the benchmark.

The Subfund QUERCUS Ochrony Kapitału (QUERCUS Capital Protection) hereinafter referred as the subfund described in this document is the subfund of the QUERCUS Parasolowy SFIO umbrella fund.
